THE DEFINED AND DISTINCT SPACES of this adorable south Minneapolis abode were designed to match the clients' joyful lifestyle. Artful expressions and a bold color palette lend whimsy to the cheerful home, while touches of Scandinavian flair further capture the essence of the homeowners' unique personalities. "This demonstrates a fearless love of color and material mixing, and I love the bright vibe," says Plumstead. Bloomquist adds, "This project, in its entirety, embodies what Life in Color is all about."
